From the inception of Bazayan GmbH in Zürich, Switzerland in 2011, the company has never looked back, growing at a very decent pace year after year. Bazayan is trading and distributing chemical raw materials for various industries. The objective of Bazayan is to become a leading player in the Chemical Trading & Distribution business in Switzerland & India through a very dedicated & qualified team.

Our hallmark as a distributor enables us to meet customers request accurately, on time and on budget. We take pride in not only having the most advanced technology to locate the most difficult to find raw materials but have a team on the front line to provide our customers with the most proactive customer centric approach to meet their business requests promptly.

Within a short time, Bazayan has already established its reliable product principles in India, China and the Far East. At present the company has strategic tie up with more than ten manufacturers in India & China for production of raw material for Personal care, Pharma and Nutraceuticals, Food Ingredients and few other industries. It is our pledge to provide quality products and services to our ever-growing delighted customers through our core principles of accountability and reliability and transparency in all aspects of our dealings, both internally and externally.

ISO 9001:2015 certified company.

We are one of the trusted names in the business when it comes to supplying quality Natural Cosmetic Ingredients for hair-care products, like shampoos, conditioners, hair tonics, etc., and other skin care products, like skin whitening creams, moisturizers, sanitizers, sunscreen lotions, etc. The ingredients are unadulterated in nature, consistent in quality, and rich in vitamins and minerals.
